Journal of Elasticity

Contents of Volume 38 (1995)

Volume 38 No. 1 January 1995

C. SCHWAB and S. WRIGHT / Boundary Layers of Hierarchical Beam and Plate Models 1–40

L. M. BROCK / Wave Diffraction-Induced Crack/Cohesive Strip Growth Based on Rudimentary Non-Linear Models 41–67

ANNE HOGER and BYRON E. JOHNSON / Linear Elasticity for Constrained Materials: Incompressibility 69–93

ANNE HOGER and BYRON E. JOHNSON / Linear Elasticity for Constrained Materials: General Theory for Hyperelasticity 95–120

Volume 38 No. 2 February 1995

PING WANG / The Limiting Case of Zero Shear Modulus in Linear Elasticity 121–132

LEV G. STEINBERG / Inverse Spectral Problems for Inhomogeneous Elastic Cylinders 133–151

JAMES R. DYDO and HENRY R. BUSBY / Elasticity Solutions for Constant and Linearly Varying Loads Applied to a Rectangular Surface Patch on the Elastic Half-Space 153–163

ALEXANDER MIELKE / On the Justification of Plate Theories in Linear Elasticity Theory Using Exponential Decay Estimates 165–208

R. C. BATRA and J. S. YANG / Saint-Venant's Principle in Linear Piezoelectricity 209–218

Announcement 219

Volume 38 No. 3 March 1995

F. T. KOKKINOS and J. N. REDDY / A Layerwise Boundary Integral Equation Model for Layers and Layered Media 221–259

K. L. MILLER and C. O. HORGAN / End Effects for Plane Deformations of an Elastic Anisotropic Semi-Infinite Strip 261–316
